INTRODUCING

IntelliSUITE™

PART OF THE WORKFORCE NETWORK™

HR and Payroll know too well the problems associated with ordinary scheduling and time clock systems. It doesn't matter if employees are performing specific tasks (claims, collections, delivery verification, etc.) or multiple tasks. You need to generate schedules, track actual hours worked, confirm hours worked for payroll, and track time spent per task to gauge efficiency. Our newest solution, IntelliSUITE, does it all. It even helps you benchmark employee performance and productivity across your organization.

SPECIAL FEATURES

- ✓ Advanced Time Clock, including:
  - Time and Attendance Tracking.
  - Schedule Confirmation.
  - Timesheet Approval.
  - Payroll Integration.

- ✓ Staff Forecasting & Automated Scheduling.

- ✓ Real-Time Measurement & Tracking of:
  - Performance/Productivity.
  - Task Completion.
  - Adherence.
  - Collaboration via Pipkins' IntelliVIEW™.
  - Key Performance Indicators.

- ✓ Historical Performance Reporting.
