

POWERFUL TIME MANAGEMENT TOOLS

PERFORMANCE MANAGEMENT

BETTER TASK TRACKING

Your entire workforce can log start and end times of the tasks they perform, as they perform them, in real time on their work station, smart phone or tablet.

Like it?

STAFFING & SCHEDULING

IMPROVED FORECASTING

With better task tracking comes more accurate Average Handle Time data which in turn will improve your overall WFM forecasting accuracy.

Want it?

RESOURCE PLANNING

RESOURCE OPTIMIZATION

Understanding the productivity of your workers will also aid in optimizing your total resource usage, and in planning when scaling operations up/down.

Need it?

INTELLITRACK™

Forget about the standard time clock apps you've used. Retire those old-fashioned physical time clocks at the entrances to your facilities, if you have them. Pipkins' cloud-based INTELLITRACK does much more, and can be used by your entire workforce, including at-home and offsite workers.
